

Luis Revilla

FULL STACK DEVELOPER

Buenos Aires, Argentina
[LinkedIn Profile](#)

+54 11 6849 4057
luisrev97@gmail.com

Full-Stack developer with almost two years of experience, looking to expand my knowledge on the entire stack. I am a versatile, self-managed and dedicated worker. With a broad skill set that has led me into a deep-dive learning in web applications, code, infrastructure and IT solutions.

EXPERIENCE

IT PLATFORM ANALYST

ExxonMobil - 09/2021, Present

Developed and incorporated features to the company's intranet sites via Sitecore CMS for a large number of vendors. Working mainly in providing customers with new functionalities using a wide set of technologies, mainly with the ASP.NET framework (C#) for the back-end, and using front-end technologies such as JavaScript, VueJS, JQuery, HTML and CSS for the UI.

- Development & Planning of new features aligned with the customer needs, following Epics, User Stories & Project Roadmaps in a Scrum team
- Troubleshooting production, infrastructure, applications and system related issues
- Implemented Server-based automations, by developing Powershell Scripts to guarantee the correct auto-maintainability of our application environments
- Mentoring/onboarding colleagues and new hires
- Performed technical support & customer service to attend our primal vendors
- CI/CD integration to build, test & release code throughout the app stages

SKILLS

PROGRAMMING LANGUAGES & TOOLS

- **Languages:** JavaScript, C#, Powershell, HTML/CSS
- **Technologies:** .NET MVC5, React, Git, JQuery
- **Other:** CI/CD with Github Actions and Azure DevOps, Sitecore CMS, SQL, Legacy Code handling

SOFT SKILLS AND MISCELLANEOUS

- Highly-focused on cross-organizational collaboration and teamwork
- Resilience and adaptability to change
- Active listener and communicator
- Courage of conviction
- Comfortable across the entire stack
- Use of Scrum as Agile framework
- Focus in customer requirements
